Capt. Jensen:

A Mrs Ruby (Sam), EMS 5082 received a phone call from a person that had a Swedish brogue and he talked like a white male. He told Mrs Ruby that he wanted to help Jack and that he was from North Dakota. Mrs Ruby did not talk to him, but just hung up the phone. She stated that she was told by a member of the FBI that in the event she received any crank calls to notify this department and we would help her. Mrs Ruby stated that this was the first such call so far, and hopes this to be the last.
